STM3210B-PRIMER

Raisonance STM32 Primer for fun, easy evaluation and development with STM32

Data Brief

Features

- STM32 Primer with STM32F103B and:
 - In-circuit debugging/programming via dedicated USB connection to the host PC
 - Ergonomic design, MEMs-based controls
 - Evaluation features including USB connector, 128x128 pixel color LCD, MEMs sensor, buzzer, IrDA transceiver footprint
- RIDE7 development software toolset with project manager, editor and high-level language debugging. Debug up to 32 Kbytes of code.
- GNU C/C++ compiler, no code size limitations
- CircleOS task scheduler with features for dynamic loading and management of new applications
- C source code for all sample applications and libraries including:
 - MEMs (GUI application controls)
 - LCD (graphical interface, games, bitmap converter)
 - more to come...
- Dedicated online community and resources at **stm32circle** web site.

Description

The **STM32 Primer** from Raisonance is a uniquely fun, easy, low-cost tool for exploring and developing with the STM32 ARM Cortex™-M3 core-based microcontrollers.

Start exploring the power of STM32 by playing with the included applications. The Primer's STM32F103B drives a fun, ergonomic hardware platform that includes a graphical user interface with MEMs-based controls for navigating and controlling the GUI and game applications. When running the applications, the Primer can function in standalone mode powered by a battery that is recharged via a USB connection.

To learn more about STM32, the Primer includes everything users need to understand how the sample applications function, modify them and even create new applications. The Primer plugs directly into a host PC's USB port for in-circuit debugging and programming, and comes with Raisonance's RIDE7 software toolset for STM32.

RIDE7 drives the hardware and offers a full range of project management, source code editing and debugging features from an intuitive graphical interface. The included version allows debug of applications up to 32 Kbytes in size. For information about upgrade to the unlimited version, refer to the **stm32circle** web site.

The included **GNU C/C++ compiler** allows unlimited compilation of applications for STM32. The compiler controls are fully integrated into the RIDE7 interface allowing building and rebuilding of applications without leaving the integrated development environment.

All the preloaded sample applications, new applications and the CircleOS task scheduler can be downloaded for free from the **stm32circle** web site. This Primer dedicated internet site also provides FAQ, user forums, links to development resources and much more.

Note: In addition to STM32, Raisonance RIDE7 also supports the complete range of STR7/9 ARM core-based, 32-bit devices, as well as the ST7 and uPSD 8-bit microcontroller families. For details about available compilers and special features for each family, refer to the STMicroelectronics microcontroller support site on www.st.com.

Ordering information

The STM32 Primer can be ordered from STMicroelectronics' sales offices and distributors using the order code:

STM3210B-PRIMER – STM32 Primer with Raisonance software tools (RIDE7, GNU C/C++ compiler), CircleOS task manager and sample application code implementing a range of device peripherals.

For more information and complete documentation, please refer to www.stm32circle.com or the STMicroelectronics microcontroller support site on www.st.com.

Revision history

Please Read Carefully:

Information in this document is provided solely in connection with ST products. STMicroelectronics NV and its subsidiaries ("ST") reserve the right to make changes, corrections, modifications or improvements, to this document, and the products and services described herein at any time, without notice.

All ST products are sold pursuant to ST's terms and conditions of sale.

Purchasers are solely responsible for the choice, selection and use of the ST products and services described herein, and ST assumes no liability whatsoever relating to the choice, selection or use of the ST products and services described herein.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted under this document. If any part of this document refers to any third party products or services it shall not be deemed a license grant by ST for the use of such third party products or services, or any intellectual property contained therein or considered as a warranty covering the use in any manner whatsoever of such third party products or services or any intellectual property contained therein.

UNLESS OTHERWISE SET FORTH IN ST'S TERMS AND CONDITIONS OF SALE ST DISCLAIMS ANY EXPRESS OR IMPLIED WARRANTY WITH RESPECT TO THE USE AND/OR SALE OF ST PRODUCTS INCLUDING WITHOUT LIMITATION IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE (AND THEIR EQUIVALENTS UNDER THE LAWS OF ANY JURISDICTION), OR INFRINGEMENT OF ANY PATENT, COPYRIGHT OR OTHER INTELLECTUAL PROPERTY RIGHT.

UNLESS EXPRESSLY APPROVED IN WRITING BY AN AUTHORIZED ST REPRESENTATIVE, ST PRODUCTS ARE NOT RECOMMENDED, AUTHORIZED OR WARRANTED FOR USE IN MILITARY, AIR CRAFT, SPACE, LIFE SAVING, OR LIFE SUSTAINING APPLICATIONS, NOR IN PRODUCTS OR SYSTEMS WHERE FAILURE OR MALFUNCTION MAY RESULT IN PERSONAL INJURY, DEATH, OR SEVERE PROPERTY OR ENVIRONMENTAL DAMAGE. ST PRODUCTS WHICH ARE NOT SPECIFIED AS "AUTOMOTIVE GRADE" MAY ONLY BE USED IN AUTOMOTIVE APPLICATIONS AT USER'S OWN RISK.

Resale of ST products with provisions different from the statements and/or technical features set forth in this document shall immediately void any warranty granted by ST for the ST product or service described herein and shall not create or extend in any manner whatsoever, any liability of ST.
